

We ask for your support.

Developing both the mind and soul is why St. Thomas is a gift to our church, our community, and our world.

The long term goal for the Foundation is to invest one million dollars so that the annual interest earned will be substantial enough to help meet the needs of the school well into the future. These goals can be accomplished only if there are regular and substantial contributors through the years. The STS Foundation invites donors to make a pledge of financial support which may be spread over a number of years. Single one-time gifts are also most welcome. All gifts to the Foundation help ensure the ongoing gift of Catholic education will be available for the future.

Thanks for your support!

STS Foundation

“Building on Faith for the Future”

The Foundation’s goal is to build upon its mission to further the religious and educational activities of Catholic Education in the greater Madison area. The STS Foundation is allowed by law to receive gifts and donations other than cash contributions. The Foundation urges all who want to support St. Thomas School to remember the Foundation in wills and bequests.

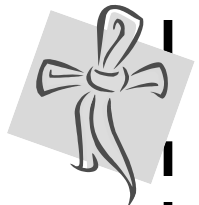

The Foundation urges donors to be mindful of the Foundation as the beneficiary of insurance policies. The Foundation is also prepared to receive gifts of real and personal property. Gifts and bequests to the STS Foundation provide an excellent opportunity for a donor to save income and estate taxes, while contributing to a very worthy cause. Please consider giving to the STS Foundation.

When you’re given a gift, you want to take care of it.
